ROBINSON
WINDOWS

WINDOWS CARE & MAINTENANCE.

At Robinson Windows, we build our windows and patio doors to work hard and perform beautifully for years to come. Like any quality product, they perform best with a little routine care.

A few simple maintenance habits can help protect your investment, preserve the appearance of your windows and doors, and keep everything operating smoothly—season after season.

ROUTINE CARE & MAINTENANCE.

A little preventative maintenance goes a long way. Make these simple tasks part of your regular home-care routine:

LUBRICATE HARDWARE ANNUALLY

In coastal or high-salt environments, lubricate hardware twice a year to help prevent corrosion and maintain smooth, reliable operation.

INSPECT WEATHER-STRIPPING ANNUALLY

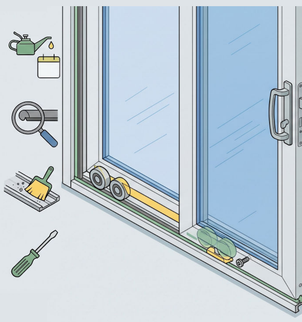

Check weather-stripping for wear or damage to help maintain a tight seal against air and moisture infiltration.

CLEAN TRACKS AND SILLS

Vacuum window tracks periodically to remove dirt, sand, and debris.

ADJUST SLIDING DOOR ROLLERS

Proper roller adjustment helps keep doors aligned, operating smoothly, and free from unnecessary wear.

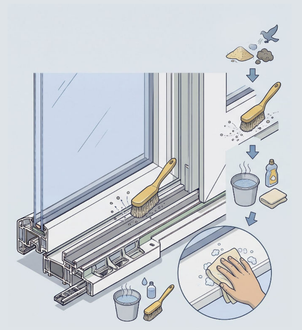

KEEP DRAINAGE SYSTEMS CLEAR.

Seeing water in the sill or track can be normal. It is part of the way the drainage system is designed to work.

To help your windows and doors manage water properly:

- Remove sand, dirt, bird droppings, and other debris promptly.
- Keep tracks and sills clear of dirt and debris.
- Inspect exterior weep holes regularly.
- Use a soft brush to gently remove debris from drainage openings.
- Clean weep systems proactively before heavy rain events.

Good drainage starts with keeping the pathways clear.

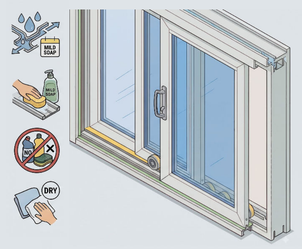

FRAME CLEANING.

Proper seasonal cleaning helps preserve the finish and appearance of your window and door frames:

- Clean with warm water, mild detergent, and a soft cloth.
- Always test a new cleaner in a small, hidden area first.
- Avoid abrasive or acidic cleaners, which can permanently damage the finish.
- Wipe frames dry with a soft cloth after cleaning.

The right cleaning methods help protect the craftsmanship and finish we put into every window.

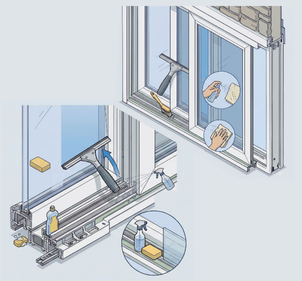

GLASS CARE.

Clean glass not only looks better—it helps you get the most from your windows.

For clear, streak-free glass:

- Clean with a mixture of mild dish soap and water.
- Rinse thoroughly with clean water.
- Dry with a soft, lint-free cloth.
- Clean glass regularly to maintain clarity and keep your windows looking their best.

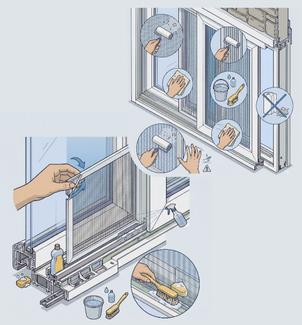

SCREEN CARE.

Screens take on dust, pollen, dirt, and debris every season. A little care keeps them looking clean and functioning properly:

- Remove screens before cleaning.
- Use mild soap, water, and a soft brush.
- Rinse thoroughly.
- Dry with a lint-free towel.
- Avoid paper towels, which can leave lint behind.
- For light debris, gently run a lint roller across the screen.

Handle screens with care to help prevent unnecessary stretching or damage.

BUILT TO WORK. BUILT TO LAST.

At Robinson Windows, we believe craftsmanship doesn't stop when the window leaves our shop. Proper care helps protect the quality, performance, and appearance we've built into every product.

With a little routine maintenance and attention to detail, your Robinson windows and patio doors can continue to open smoothly, seal tightly, shed water, and look great for years to come.
